QUICK START GUIDES 🚀

FOR DEALERSHIPS (USER ROLE)

🎯 YOUR DASHBOARD IN 30 SECONDS:

1. **Login** → Your personalized SEO dashboard appears
2. **Progress Overview** → See your monthly SEO improvements
3. **AI Assistant** → Click chat to ask SEO questions
4. **Reports** → Download your monthly progress report

💬 USING THE AI ASSISTANT:

Just ask naturally: - "How is my website performing this month?" - "I need more customers for Toyota Camrys" - "Help me improve my Google Business listing" - "Create a blog post about winter car maintenance"

The AI will: - Answer your questions instantly - Create tasks automatically when needed - Connect you with SEO WORKS team - Track all your requests

📊 UNDERSTANDING YOUR REPORTS:

- **Green numbers** = Improvement
- **Red numbers** = Need attention
- **Trends** = Month-over-month progress
- **Actions** = What's being done for you

FOR AGENCIES (ADMIN ROLE)

🏪 AGENCY DASHBOARD IN 60 SECONDS:

1. **Client Overview** → See all dealership performance
2. **Quick Add** → Onboard new dealership in 30 seconds
3. **Bulk Operations** → Upload CSV for multiple clients
4. **White-label Reports** → Generate branded client reports

⚡ QUICK DEALERSHIP ONBOARDING:

1. **Click "Add Dealership"**
2. **Fill basic info** (name, website, contact)
3. **Select package** (Platinum/Gold/Silver)
4. **Choose targets** (brands, cities, competitors)
5. **Submit** → System creates all tasks automatically

📈 CLIENT MANAGEMENT:

- **Dashboard View** → All clients at a glance
- **Performance Tracking** → Monthly progress for each
- **Report Generation** → Bulk or individual reports
- **Task Monitoring** → See what SEO WORKS is doing

🎨 WHITE-LABEL FEATURES:

- **Branded Reports** → Your logo, colors, messaging
- **Client Portal** → Clients see your brand only
- **Custom Templates** → Agency-specific report formats
- **Automated Delivery** → Schedule regular client reports

FOR SEO WORKS (SUPER_ADMIN ROLE)

🏢 SYSTEM CONTROL IN 90 SECONDS:

1. **Platform Overview** → All agencies and performance

2. **Agency Management** → Create/configure agencies

3. **Business Intelligence** → Cross-agency analytics

4. **System Health** → Monitor platform performance

🔧 AGENCY SETUP:

1. **Create Agency** → Name, plan, limits

2. **Add Admin User** → Agency owner credentials

3. **Configure Settings** → Branding, features, limits

4. **Monitor Launch** → Track initial usage

📊 BUSINESS INTELLIGENCE:

- **Revenue Analytics** → Agency performance and growth

- **Capacity Planning** → Workload across all agencies

- **Quality Metrics** → Service delivery tracking

- **Growth Trends** → Platform expansion insights

⚙️ SYSTEM ADMINISTRATION:

- **User Management** → Roles and permissions

- **Feature Flags** → Enable/disable features per agency

- **Performance Monitoring** → Response times, errors

- **Security Oversight** → Access logs, violations

COMMON WORKFLOWS

🚗 DEALERSHIP: "I NEED MORE CUSTOMERS"

1. **Open AI Chat** → "I need more customers for Honda Civics"

2. **AI Responds** → Analyzes your current performance

3. **Creates Tasks** → SEO optimization, content creation

4. **Tracks Progress** → Monthly reports show improvement

5. **Delivers Results** → More website traffic and leads

🏪 AGENCY: "ONBOARD 10 NEW CLIENTS"

1. **Prepare CSV** → Download template, fill client data

2. **Bulk Upload** → Upload CSV, system validates

3. **Review Preview** → Fix any issues before processing

4. **Process All** → System creates accounts and tasks

5. **Monitor Progress** → Track onboarding completion

🏢 SEO WORKS: "LAUNCH NEW AGENCY"

1. **Create Agency** → Set up Rylie SEO competitor

2. **Configure Branding** → Logo, colors, messaging

3. **Add Admin User** → Agency owner access

4. **Set Limits** → Users, conversations, features

5. **Monitor Launch** → Track initial adoption

TROUBLESHOOTING

🚗 DEALERSHIP ISSUES:

"I can't see my reports" → Check with your agency admin for access

"AI isn't responding" → Refresh page, check internet connection

"My numbers look wrong" → Contact your agency for data verification

🏪 AGENCY ISSUES:

"Client onboarding failed" → Check required fields, verify email format

"Reports not generating" → Verify GA4 connection, check date ranges

"Bulk upload errors" → Download error report, fix data issues

🏢 SEO WORKS ISSUES:

"Agency not responding" → Check system health, review error logs

"Performance degradation" → Monitor database, check cache hit rates

"Security concerns" → Review access logs, check permissions

BEST PRACTICES

🚗 FOR DEALERSHIPS:

- **Ask specific questions** → "How can I rank better for 'Toyota dealer near me'?"
- **Check reports monthly** → Track your SEO progress
- **Use the AI regularly** → It learns your business better
- **Provide feedback** → Help improve your service

🏪 FOR AGENCIES:

- **Onboard systematically** → Use templates and bulk operations
- **Monitor client progress** → Weekly check-ins on performance
- **Generate regular reports** → Monthly client communication
- **Train your team** → Ensure everyone knows the system

🏢 FOR SEO WORKS:

- **Monitor system health** → Daily performance checks
- **Track agency growth** → Monthly business reviews
- **Optimize performance** → Regular system tuning
- **Plan capacity** → Anticipate scaling needs

SUCCESS METRICS

🎯 WHAT SUCCESS LOOKS LIKE:

For Dealerships: - Monthly website traffic increases - More phone calls and form submissions - Better Google search rankings - Improved Google Business Profile performance

For Agencies: - Client retention and satisfaction - Efficient onboarding processes - Automated report delivery - Growing client base

For SEO WORKS: - Platform uptime and performance - Agency growth and expansion - Revenue per agency - System scalability and efficiency

---

GETTING HELP

📞 SUPPORT CHANNELS:

Dealerships: - Contact your agency admin - Use the AI assistant for questions - Check the help section in your dashboard

Agencies: - Technical support via platform - Business development consultation - Training and best practices guidance

SEO WORKS: - System administration documentation - Performance monitoring tools - Business intelligence dashboards

Remember: The system is designed to be intuitive. When in doubt, try the AI assistant first! 🤖
